Crow Canyon Archaeological Center is excited to present our 2020 program line-up! Each year, we educate and inspire curious people of all ages. Whether you are new to archaeology or have deep knowledge, our trips and programs will broaden your understanding while you experience the rich cultural heritage and majestic landscapes of the American West and beyond.

WHAT WILL YOU EXPLORE NEXT?

JOIN US FOR A UNIQUE EXPERIENCE!

ADULT PROGRAMS

Archaeology Lab Program

Middle & High School Archaeology Camps

School Groups
Crow Canyon’s one-day field trips and overnight programs for school groups are designed for students in grades 4 through 12. Program modules vary depending on grade level, program length, and group size. Core activities teach students about archaeology, ancestral Pueblo history, the scientific process, and the complex interactions between people and their environments.

Summer Camps for Teens
Students ages 13 to 18 will excavate an archaeological site in southwestern Colorado that dates back nearly 1,000 years. These science camps also include opportunities for teens to learn about Native American cultures, and include a field trip to nearby Mesa Verde National Park.
